

Thomas Lucas

Producer and director Thomas Lucas has been creating award-winning films on science and natural history topics for over a decade. He recently completed his third special for DDE and PBS titled *Beyond Human*, a fascinating two-hour look at the growing merger of man and machine. He also produced *Voyage to the Milky Way*, an examination of the future of space exploration, and (along with Engle Brothers Media) *Mysteries of Deep Space*, a three-hour series revealing recent breakthroughs in the field of astronomy, for DDE and PBS. In addition to these films, Lucas has produced three films for PBS' *NOVA* series, and several *World of Audubon* specials for Turner Broadcasting. His work has also appeared on The Discovery Channel and he is currently working on an HDTV production for the network. Lucas received an M.F.A. in Film from Columbia University in 1977. He currently lives in New York City, where his production company, Thomas Lucas Productions, (www.tlproductions.com) is based.
